About us

Increase player Customer Lifetime Value (CLV) organically with Universal Game Club. A curated collection of safe games and features for a variety of player profiles. We apply target bonuses, informed by cross-game-play insights, and boost CLV organically by nurturing recreational bettors towards becoming casino game players. Together, we enhance the player experience, elevate retention, and increase your profitability.

Mission & Vision

Our Mission

To nurture recreational bettors into casino and multiple gaming players.

Our Vision

To be the go-to gateway between sports and games.

Benefits for Universal Game Club

In the partner marketing model, partner networks as direct publishers advertise a product or service on their web and mobile-based marketing channels in return for a commission. A partner network acts as an intermediary between multiple publishers and advertisers, offering advertisers access to the inventory of partners in their network.

Why Universal Game Club

Partner marketing brings data and systematization into a potent environment. With access to automated features, your trusted partner network can understand what's working and what isn't in real-time. This enables them to easily optimize your gaming campaigns and closely analyze new traffic sources, by getting constant feedback from publishers and traffic vendors. It takes away the partner's time and stress of manually optimizing your gaming campaigns and managing data.

Partner with Universal Game Club

At Universal Game Club, we're all about long-term strategy and collaboration. How we win, is all about how we help you, our partners, win. And that's not a short-term outlook. We believe in honest, transparent, strong and long-lasting relationships. Because together we'll have an impact on the experience players have. Strong partnerships lead to premium gambling experiences built on innovation. It should always be about giving players the type of games they want to play, and that they'll come back time and time again to play.

Bonus / Cashback

Our engagement tools also offer direct rewards and are great for both player retention and new player acquisition. The Bonus feature delivers more opportunities to play and win, offering even more entertainment in a game. For games like Speedy 7 and G+ Poker you get even more chances to play. With Cashback, players can get back some of the money they bet. This encourages increased game activity, where players receive part of their losses over a predetermined time and can redeem a percentage of their bets.
